MID-AFFILIATION QUESTIONS

Please answer the questions on this page and turn in to your supervisor at the time of your mid-term evaluation.

1. Do you feel that you have too many, the right number, or not enough patients on your daily schedule?
I think that I have the right number - I feel challenged, but not to the extreme.
2. Comment on the type of supervision you are receiving, and if you feel it is best for you.
I enjoy having freedom, but having someone there in case I need anything and that is what I have been receiving so far!
3. Do you need additional time during working hours to complete your paperwork and other assignments?
No, I am able to get most things done at the facility and don't mind working on some stuff at home.
4. Do you have enough opportunity to discuss the program with your supervisor?
Yes, she was always open for discussion.
5. Do you feel you need more guidance in the selection of treatment media?
No, it is more of me being more creative with the media that is available.
6. Do you feel the overall program is geared toward your individual needs?
Yes, I feel like I am learning a lot and being pushed out of my comfort zone and improved my abilities as a future practitioner.
7. How would you improve the quality and value of this affiliation? Please suggest any additions or deletions.
I do wish that towards the beginning when I was mostly observing that I could have gotten a little more of an explanation on treatments and what they were targeting. This may have just been because I did not have access to the computer to look through patient's charts and where they currently stood.
